## Native App - Frontend Developer (all genders)

### What you can move with us:

- You develop and implement the front-end components of native mobile applications for iOS and Android using flutter.
- You work closely with designers and backend developers to ensure an engaging user experience.
- You update and maintain the existing app to meet the latest technology and security standards.
- You like to stay up-to-date on advances in mobile app development and put your knowledge into practice.

### What you bring along:

- Experience in native mobile app development for iOS and Android.
- Profound knowledge of relevant programming languages and frameworks (e.g., flutter, Dart, React, Typescript)
- Good understanding of UI/UX principles and experience working with designers
- Experience working in an agile development environment
- Knowledge in the integration of APIs and web services
- Very good knowledge of English
- Experience with version control systems such as Git
- Very good communication skills and ability to communicate technical concepts to a non-technical audience
