

INFORM'S E-LEARNING ACADEMY

The GroundStar Academy is INFORM's new knowledge management hub offering GroundStar customers a variety of e-learning courses aimed at the acquisition and transfer of knowledge. Your benefits:

- Simplifies workshops by supporting the knowledge transfer process
- Multiplies value of workshops: more users receive high-quality training
- Improves knowledge retainment and usage of GroundStar products
- Keeps customers informed and trained on new features and versions

/ HOW YOU BENEFIT FROM INFORM'S E-LEARNING ACADEMY IN ALL PHASES

Implementation

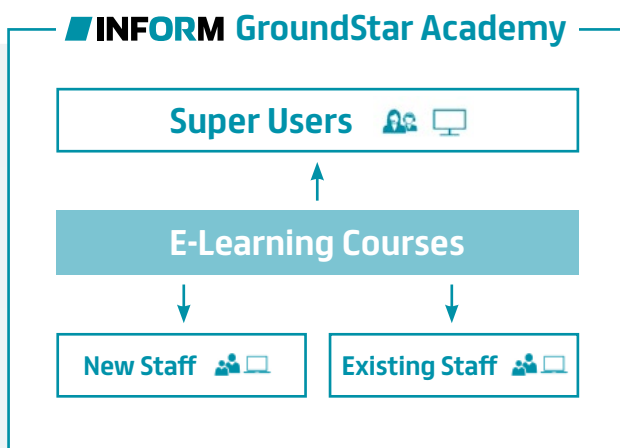

- Enhances workshops by adding interactive digital material
- Supports INFORM trainer and students during and after a workshop
- Multiplies value of workshops for customer. More users receive high-quality training

Live Operation

- Improves handling of GroundStar modules
- Serves as place of reference
- Reduces need and scope of refresher trainings, saving time and resulting in cost reduction
- Supports the training of new staff

Long Term

- Keeps customer informed and trained on new releases and features
- Serves as a platform to watch and read interesting INFORM content such as in-depth videos, presentations, talks and interviews

The GroundStar Academy supports the training requirements of multiple user profiles, from super users all the way to onboarding new staff or supporting existing staff.
