Dear Tyrone,

Payments are moving faster, and so are the challenges around fraud and compliance. In this issue of the *RiskShield News Radar*, we share expert insights to help you stay ahead: from tackling evolving AML requirements and harnessing machine learning, to protecting account-to-account payments with Hybrid AI.

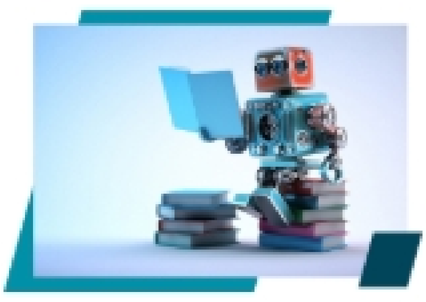
And with Sibos 2025 around the corner, find out how to connect with us in Frankfurt as we explore the future of fighting financial crime together.

Scroll down, explore the insights, and stay ahead of what's next.

With that said, enjoy the read and best regards,
Your RiskShield Team

Tackling AML Challenges with Confidence and Clarity
In the race to keep up with instant payments and complex AML requirements, financial institutions need more than just compliance, they need confidence. Staying ahead means not just meeting today's AML demands but anticipating tomorrow's. In our latest blog, Dr. Stephan Lemkens shares his expert view on how to tackle these challenges and build resilience in your compliance strategy.

AI-Powered Protection for the A2A Era
Instant, seamless, and global: Account-to-account (A2A) payments are redefining digital commerce. But speed also demands smarter safeguards. In a feature interview with The Paypers, INFORM shares how real-time risk analysis and Hybrid AI help financial institutions safeguard A2A payments and build lasting trust with their customers.



ML: From Concept to Real-World Impact
Machine learning is more than just a buzzword - it's a game-changer in how financial institutions detect and prevent fraud. But what exactly is it, and how does it work in practice? Read our INFORM Blog to dig into how this technology actually works and why it's critical for staying ahead in today's fast-moving payments landscape.

Where to Meet Us Next: Sibos 2025
As Frankfurt prepares to host one of the financial industry's largest events, INFORM is excited to join Sibos 2025 as an exhibitor. Under the theme *Hybrid AI for Fraud Prevention & AML Compliance*, we'll showcase how our RiskShield solution helps financial institutions detect and prevent fraud, money laundering, and sanctions violations in real time, across both instant and cross-border payments. We're also contributing to the conference program with our session *"Rethinking Fraud Prevention in the Age of Instant Payments: Moving from Isolated Data Points to Holistic Intelligent Decisions."* Get all the details on our presence here.
