

SwiftMove

Quick, flexible, and easy!

SwiftMove applies an advanced Artificial Intelligence (A.I.) algorithm to optimize the allocation of transport orders and vehicle fleets. This includes real-time routing and scheduling with multiple pick-up and delivery locations and priorities. It moves all kinds of load types like people, urgent medicines, construction materials, food deliveries, etc.

SwiftMove: a cloud-based software in an easy-to-use smartphone app for drivers or operators of all kinds of vehicle fleets (cars, vans, trucks, buses, hospital beds, golf carts, etc.)

SwiftMove

is perfect for food deliveries, medicines, people, etc.
